went to admit the supposed prisoner, he did not have the slightest idea of what was impending. The men appear to have understood the leader perfectly, and how well the program that must have been mapped out, was put into effect, has already been told.

Moore was convicted of the murder of Howi at a special term of the Circuit Court of Nelson county, which was held for Awat purpose, early in September.

Howi died suddenly, and after suffering convulsions, on the night of May 13 last. Actions of Mrs. Howi and Moore on the night of Howi's death, as well as their alleged relations prior to the death for months, caused the usual neighborhood gossip. This finally reached the ears of the county authorities, and three days after the burial an order was secured by which the body was officially exhuned and examined. The stomach was removed and sent to Dr. Mallet, of the University of Virginia, who at the two subsequent trials, testified that three-quarters of a grain of strychning was found therein.

As soon as it was found that there were suspicious circumstances surrounding the death of Howl, John Moore disappeared. The State offered a reward, which was added to by the Board of Supervisors of Nelson county. For several weeks Moore was searched for, but without avail. In a short time after this Moore appeared in helpon counity and surrendered himself to the jailer here.

In a short time the Nelson authorities deemed it a matter of good policy to remove Moore to the city jail at Charlottesville for safe keeping.

of Mrs. How!

Last Saturday Moore was taken into court, when a motion for a new trial was being argued. Affidavits of two physicians were presented tending to show that Moore was insane at the time of the commission of the crime, and that he was at the time of the motion in the same condition. After hearing arguments for and against the motion, Judge Gordon overruled it, and sentenced Moore to be electrocuted on November 20 Jailier Perry then started back to the jall with the condemned man, and when a short distance from the courthouse en route to the jail, Moore made a sensational break for liberty. It looked for a brief time as though he would be successful then, but his long incarceration of more than four months told on him. He was unable to keep up his speed for more than 300 yards, after which the jailer overtook him, and had no trouble lead, ling the much-fatigued man back to jail, where he remained until he was rescued this morning.

Some of the thoroughbred animals looked askance at the strangely ghost-like riders that tried to vault into the saddle, but there were no serious delays. At last all had gathered at the starting point wainting the word.

Weird, indeed, was the scene as the contestants held their chaining mounts in line. Days of the Ku Klux Klan, when mysterious horseman terrified the superstitious as they rode, like a graveyard cavalcade, along shady roads or over the fields where they stood out grimly against the dark skyfline, tales of white caps and of night riders were recalled and some of the younger and more timid of the spectators

Candidate Dix Not Connected With Wall-Paper Trust.

New York, October 21.—The charge in Theodore Roosevelt's speech last night that John A. Dix, the Demoratic nominee for Governor, was a director of the wall-paper trust, was denied to-day by Mr. Dix's friends and business associate, Winfield A. Huppuch, chalrman of the Demoratic State Committee. In a statement—ued at Democratic headquarters to-day, he said:

"Mr. Roosevelt's charge that the Standard Wall Paper Company, of which Mr. Dix is a director and has been since June, 1907, is a part of the wall-paper trust, is absolutely without foundation. The Standard Wall-Paper Company is not connected directly or indirectly with any other wall-paper rompany or with any wall-paper rust. The so-called wall-paper trust or combination in any manner, shape or form, neither has it been since Mr. Dix became a director. As a matter of fact there is no wall-paper trust trust or combination was dissoived in 1899. This statement is only continued evidence of Mr. Roosevelt's reckless disregard for facts, and shows again how badly rattled he is at the situation in which he finds himself, and his candidate."

Have Strike and Iron Maustain.

Have Strike on Their Hands.

St. Louis, Mo., October 21.—Simultaneously with the walking out of boilermakers, pipe men and blacksmiths of the Missouri Pacific and the Iron Mountain Railroad systems today, in sympathy with the 1,200 striking machinists, the companies received three carloads of men from Chicago to fill the vacancies.

The walkout of the mechanical workers was general along the lines of the roads. Reports to the roads head quarters are to the effect that all members of the three unlons obeyed the orders of their presidents to strike. General Manager A. W. Sullivan said that the walkout would not have any material effect on the train service. Sullivan said the roads employed 1,200 members of the unlons which walked out to-day. The presidents of the unlons maintain that 2,500 men quit work. No violence is anticipated.

Nearly 500 Will Vote for University
Trustees Next Month.

Chicago, October 21.—Four hundred and ninety women of Chicago have registered, according to compliation of the election board.

The votes of those thus enrolled may be cast next month for candidates for trustees of the University of Illinois. The total fell short of the expectations of equal suffrage champions, who had been conducting an "educational campaign" to bring members of their sex to the polls.

All the feminine enrollment was in 243 precincts, being less than one-fifth of the 1,329 precincts in the Chicago election district. In three wards—the Fourth, Elevenut and Sixteenth—not a woman registered on either of the days when the books were open.
